Summary

Driven by a passion for technology and teamwork, I honed my web development and collaborative skills at ICT ACADEMY OF KERALA, developing a library management system using the MERN stack. At NEST KALAMASSERY, I excelled in streamlining production processes, showcasing my adaptability and problem-solving abilities.

Experience

- ICT Academy** 2023 May 2 - 2023 May 31
Intern
Developed a seamless web application using the MERN stack, leveraging MongoDB, Express.js, Node.js, and React to create a responsive and user-friendly interface, while collaborating effectively with team members.
- SFO Technologies (Nest Kalamassery)** May 2024 - July 2024
Production Trainee
Collaborated with team members to achieve daily production goals and effectively used hand tools, such as wrenches and pliers, in component assembly.

Education

- Government Polytechnic College Perumbavoor** 2021 - 2024
Diploma in Computer Engineering
74.9%
- Government Higher Secondary School, Kallil, Methala** 2019 - 2021
Higher Secondary Education
84%
- Shobhana English Medium High School, Kothamangalam** 2019
SSLC
96.57%
- Model Engineering College Thrikkakara** Pursuing
Btech Computer Science and Business Systems

Skills

- HTML, CSS, Django, Mern stack, Python, Routing, Switching, Cloud computing

Languages

- Malayalam (Native), English (Intermediate), Hindi (Conversational)

Projects

- Library Management System (MERN)**
The Library Management System is a web-based application designed to manage and automate library operations. It allows librarians to efficiently manage book inventory, track borrowing and returning, and maintain patron information.
- Budget Tracker**
Budget Tracker is a web-based application designed to help individuals manage their finances effectively. The application allows users to track their monthly expenses and provides a clear picture of their spending habits.
- Cosmos Aurora**
Final year project, A WhatsApp bot designed to automate various tasks around the home. This innovative solution leverages the power of natural language processing and automation to streamline daily routines. Users can interact with the bot through simple text messages to control lights, appliances, and other devices, creating a more convenient and efficient living environment.

Certifications

- CCNA v1.1, 200-301 - ITTC Manglore
- Ethical Hacking - Udemy (Technovalley AKS)
- Basics of Cloud Computing - Infosys Springboard (Pursuing Online)
- Python Django - Gtech Perumbavoor
